THE SIMULATOR

RED BULL RACING FACTORY
THINK YOU HAVE WHAT IT TAKES TO HANDLE A FORMULA ONE™ CAR?

We offer a fully-immersive and highly realistic Simulator Experience that gives you the chance to work alongside our driver development and test engineers in a simulation that takes out own drivers true for race. A hugely complex computer-designed to react as our F1™ car would out on track, the simulator allows our drivers and engineers to anticipate every possible scenario of the race weekend ahead.

Exclusively host a session offering you to push your Formula One™ circuit of choice, receive one-on-one coaching by our simulator engineers and then put yourself to the ultimate test to see how you cope with the complexity of driving our F1™ car. This isn’t for the faint hearted and offers a very true representation of the fitness, stamina and concentration required by a modern day F1™ driver.

PRIVATE HIRE

The Simulator Experience is offered on a rental basis for up to 3 guests on a half day hire period (3 hours). This experience can be added to any event or meeting room booking, as well as enjoyed as a standalone experience here at the home of the Red Bull Racing Team.
Our trophies tell their own story; four double Formula One™ World Championships, 4,300+ championship points, 50+ Grands Prix victories and counting – and all in a compressed time frame, quicker than anyone else. As we embark on a new chapter in our story powered for the first time by Honda, we invite you to join us on a journey through the beating heart of our operation.

Formula One™ is a secretive world and we guard those secrets closely: very few people get to see what goes on behind the mirrored-glass walls of the Red Bull Racing factory. You can be one of those few. In limited numbers, we’re offering a truly incredible opportunity to go behind the scenes and tour our factory, witnessing the evolution of a Formula One™ car as it travels from concept to final assembly.

SIMULATOR OPEN DAY IS
OCTOBER 12 2019

THERE ARE 2 PACKAGES AVAILABLE FOR THE SIMULATOR OPEN DAY:

PACKAGE 1 EXPERIENCE:
- Guest arrives from 11.00am.
- A maximum of 1 hour of simulator time with guidance from our expert engineer.
- Refreshments served on arrival.

PACKAGE 2 EXPERIENCE:
- Guest arrives from either 08.00am or 11.00am. Refreshments served on arrival.
- A minimum of 1 hour of simulator time with guidance from our expert engineer.
- Breakfast served in RBH.
- Lunch served in MK-7.
- A minimum of 1 hour of simulator time with guidance from our expert engineer.
- Exclusive Red Bull Racing Gift Bag including signed merchandise.

The process operates like clockwork – it has to. Our tour is designed to present the inner workings of the machine, taking in the various developmental stages, all the way to the point where thousands of components are brought together in our race bays to create the Red Bull Racing RB15.
